

SILK-QUEEN heal your body and release your stress.

Efficacy

Hyperthermic effect

Ultrasounds are generated when countless fine-bubbles explode. Reflected heat by ultrasonic waves warm the bone. Thermal effect lasts after stepping out of the bath.

Thermography

Refresh in the negative ion

When fine-bubble breaks near the water surface, countless mist are released to the air the mist with negative charge.

Massage effect / barrier effect.

Countless fine-bubbles repeat massaging upon skin and rejuvenate skin and promote blood circulation. Bubbles stick to your body will guard your body to prevent from taking burden on your body. There is efficacy of moxa to promote the secretion of growth hormone stimulating the sensory nerves.

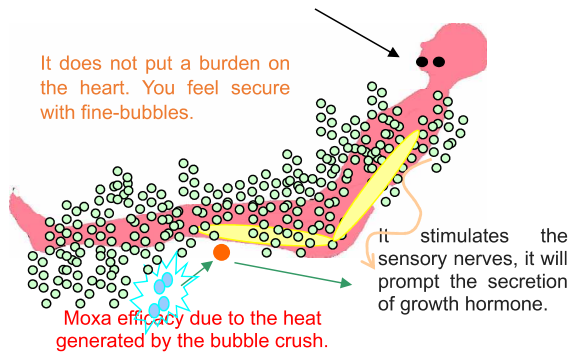

Remove dirt and sebum to clean your skin. You are safe even if you have a skin disease as it has sterilization and de-bacteria efficacy.

Observation of fine-bubbles in phase-contrast microscope

You can see a bubble of about 12 μ m in the upper right, and white spots of the rest is nano-bubbles of about 100 ~ 500nm.

It does not put a burden on the heart. You feel secure with fine-bubbles.

Moxa efficacy due to the heat generated by the bubble crush.

it stimulates the sensory nerves, it will prompt the secretion of growth hormone.

Bone is heated by reflected heat generated when Ultrasonic waves reach the bon.

Efficacy

Emulsification cleaning / Beauty

It promotes the metabolism of the skin, rejuvenate the skin and promote blood circulation. Good for beauty and anti-aging

Women love pure white of fine-bubbles

"White" mysterious is eternal longing for a woman more than anything. It creates a relaxing space of extraordinary.

IMPRESSIONS

- ① It was a refreshing wake up next morning.
- ② Sweat came out in 4-5 minutes half the body bathing even at a low temperature of 39 °C ~38 °C in winter.
- ③ I was totally relaxed the whole body as if being massaged.
- ④ I was feeling my foot was kept warming for 4 hours.
- ⑤ I had a cold but it was cured by bathing twice.
- ⑥ I sweat a lot while sleeping after taking SILK-QUEEN.
- ⑦ I usually hardly get to sleep and my foot is cold, but I could fall asleep soon and my foot was warm.
- ⑧ I think that it is not necessary to wash the body with soap. The body was warm until the next morning.

(Questionnaire survey of users)

Purifying and sterilization

Fine-bubble generates free radicals continuously when they break themselves in water. The free radicals break down harmful substances and Legionella to be harmless.
